About Participating Providers

The health care providers listed in this Directory are Participating Providers with UHA. The geographic service area for this plan is the State of Hawaii. Participating Providers have agreed to cooperate in making health care more affordable, by accepting your UHA health plan’s schedule of reimbursement for services provided. Therefore, you save on your out-of-pocket expenses when you go to a Participating Provider. This is because UHA pays the Participating Provider directly for the services you receive and the Participating Provider agrees to charge you only the co-payment due, if any, (plus taxes) according to your benefit plan.

You may still choose to go to a provider who is not a Participating Provider with UHA. If you do, however, your out-of-pocket expenses will be more. Participating Providers agree to charge you only your co-payment or co-insurance for services that are covered under your plan. Non-Participating Providers have no such agreement with UHA. Therefore, if you receive services from a Non-Participating Provider, you are responsible for the difference between UHA’s payment and the Non-Participating Provider’s actual charge, which may be substantial.

How To Use This Directory

This Directory helps you to locate a UHA Participating Provider. You will find listings for Pharmacies participating with UHA Drug Plans and Physicians, Clinics, Hospitals, Ambulatory Surgery Centers, etc. participating with UHA medical plans. Providers are listed alphabetically by island under the name of the specialty or specialties in which they practice. Telephone numbers and office addresses for each provider may be found in your telephone directory or by searching on our website at uhahealth.com. Those providers who are accepting new patients are marked with an asterisk (*).

Please note that this directory is subject to change without notice. Names may be added or removed, and the continued participation of any provider cannot be guaranteed. Please call Customer Services or the provider to confirm that a specific provider is still a Participating Provider with UHA. You may also call the provider’s office to find out if they are taking new patients.
